

Manitoba Omnibus

About the Omni

Probe Research Inc. has conducted its quarterly Manitoba Omnibus Survey on an uninterrupted basis for more than a decade. This respected tool has helped hundreds of private, public, and non-profit organizations understand Manitobans and make better decisions.

Why an Omnibus Survey?

All organizations need strategic research, yet tight budgets often discourage these important studies. The Omni solves this dilemma by assembling a group of clients who share the cost of a large-scale general population survey, while exclusively retaining their own results.

Subscribers can purchase a small unit of questions, either as part of a more in-depth research program or to simply take the temperature of Manitobans on a particular topic.

How it works

Probe Research employs a hybrid phone-to-web model. A live-voice operator randomly recruits respondents by landline or mobile phone, inviting them to complete the survey online using a secure link. This hybrid method preserves the true probability sample vital to scientific surveys while increasing response rates, particularly among hard-to-reach younger citizens. This method also allows for more creative and detailed questions online that may not be achievable with a telephone survey.

As well, we can boost our sample size for clients who need more detailed data from a particular demographic or region, such as millennials or residents of a specific municipality.

Question Type*	City Only N=600	Province Wide N=1,000
Single Closed End	\$850	\$1,050
Single Open End	\$1,075	\$1,250
*Two question minimum		
**Questions featuring video subject to additional programming costs.		

Omnibus	Questions Finalized	Data Collection Period	Final Deliverables to client (week of)
Spring 2022	February 28	March 9 - 20	March 28
Summer 2022	May 24	June 1 – 12	June 20
Fall 2022	August 29	September 8 – 19	September 26
Winter 2022	November 14	November 23 – December 4	December 12

What you can learn

- ✓ Gauging public opinion on key issues, now and over time. Do Manitobans support or oppose your policy initiative? What arguments are most persuasive?
- ✓ Tracking long-term market trends and consumer habits. How has awareness or use of your product or service changed over time or in relation to competitors?
- ✓ Developing low incidence databases. What proportion of Manitobans or Winnipeggers behave a certain way or use a certain product?
- ✓ Ad tracking and examining the effect of public relations campaigns. How many Manitobans were reached by a marketing campaign and did the message resonate or change views and behaviours?

What you'll get

-  Close collaboration with professional Probe Research staff to develop clear, objective and actionable survey questions.
-  An accessible, easy-to-read graphical report of key findings, including highlights on significant differences across demographic sub-groups.
-  Raw data tables, showing your results broken down by respondents' gender, age, income, education, etc.
-  Analysis and next steps to emerge from the findings.
